# How to Change Icons for Bongiovi DPS OSX

1. Browse to **Macintosh HD/Applications/Bongiovi Acoustics**
2. Right-click or Control-click on the **Bongiovi DPS** application

3. Choose **"Show Package Contents"**
4. Browse to .../**Contents/Resources**

5.

Drop your desired **DPSStatusMenuItemIconActive.png** and
DPSStatusMenuItemIconActive@2x.png into this folder.
   a. Select "Overwrite" when prompted.
   b. There is no need to replace the grey icons. They are monochrome and work with
       all styles.
   c. Retina displays will use the …@2x version while normal displays will use the
       other.

This zip file contains Blue and Black active icons that are Dark Mode compatible. You may
replace them at any time to suit your desktop style.

If you have any issues, please create a support ticket at BongioviDPS.com

Thanks for using Bongiovi DPS!

Sincerely,

The Bongiovi Audio Team
